

## **REMARKS**

### **I. Status of the Claims**

Claims 68-75 are pending in this application. No claims have been amended or cancelled by this response.

### **II. Objections to Specification and Claims**

#### **A. Reference to Continuing Data**

In response to the Examiner's suggestion, Applicants have amended the specification to reflect the fact that this application is a divisional of U.S. Patent 6,379,397.

#### **B. Non-Elected Subject Matter**

The Examiner states that the objection to claims 68-75 would be overcome if the claims were limited to the elected subject matter identified at pages 2-4 of the Office Action. In response, Applicants respectfully request that the Examiner expand her search, as is her duty, because prior art was apparently not found for the elected subject matter.
